

CBMR English Progress Monitoring

Progress Monitoring Report - Generated November 14, 2025

Student Information

Student Name:	Unknown
Student ID:	1001
Grade:	N/A
Teacher:	N/A
School:	N/A

Assessment Summary

Performance Metrics

Metric	Previous	Latest	Change (Δ)	Trend
Words Read Correct per Minute (WRC/min)	18.0	15.0	-3.0	↓
Accuracy (%)	87.2	85.5	-1.7	↓
Comprehension Score	9.0	8.0	-1.0	↓

Risk Indicator Legend

Low Risk	Student is meeting or exceeding expectations
Some Risk	Student may benefit from targeted support
High Risk	Student requires immediate intervention

Recommendations

- Immediate intervention recommended. Consider intensive small-group instruction.
- Schedule progress monitoring assessments bi-weekly to track growth.

- Focus intervention on: words_read_correct, comprehension

Understanding This Report

Purpose

This Progress Monitoring Report tracks student growth over time through bi-weekly assessments. It shows the change (delta) between the most recent assessment and the immediately prior assessment.

How to Read the Data

Each metric shows the current score, previous score, and the change (Δ). Positive changes indicate growth, while negative changes suggest areas needing additional support.

Risk Indicators

Color-coded indicators help identify students who may need intervention:

- Green (Low Risk): Student is performing at or above benchmark
- Orange (Some Risk): Student may benefit from targeted support
- Red (High Risk): Student requires immediate intervention

Next Steps

Use this data to inform instructional decisions, adjust interventions, and communicate progress with families and support teams.
